BTW loonix gods
込 Thursdays 3–4 in GITC 3700 (the big room)

(I’ll find the logo I made years ago l8r)
we will be listening to kanye while watching neetcode videos, sacrificing those not cs to the faang gods to get offers (that are better than from cringe handshake), grinding lc, taking on advanced projects that make even me shutter which also increases social credit and github clout, social engineering 101, clout chasing, getting tech toxic and bling out
